NEW

Over the years, Rousseau has developed storage solutions that satisfy the standards of the "5S" methodology. This Japanese technique is intended to continuously improve the work environment. The goal is to improve organization and create a functional work environment while making sure that each tool has its own place and is clearly identified and easy to find. A choice of 18 standard colors is also offered to facilitate your "5S" management by color.

Moreover, the storage solutions we propose enable you to improve your employees' working conditions and morale, while reducing the time and energy they expend.
